Who We Are

The Mississippi Center for Nonprofits is the state's only nonprofit management resource center. For the thousands of nonprofit organizations across the state, the Center is the primary source of management training, technical information, advice, answers, and connections to vital resources. We believe we work best when we work together, hence we encourage and foster statewide networking and collaborations among nonprofits.

Our History

The Center grew out of repeated requests by community-based nonprofit organizations who felt an important piece was missing from Mississippi's nonprofit sector—a statewide association to offer training, peer networking, technical assistance and other needed management services across the state. Today, the Center provides an array of vital management services to its members and hundreds of other nonprofits. The Center has become *the* place where grassroots nonprofits go for direction and answers to the technical and management questions they face.

Our Services

Education & Training - The Center hosts over 75 workshops annually along with 4 regional conferences, and our annual conference held in Jackson every year.

Networking & Information - The Center is the place to learn about new funding and career opportunities, technical assistance, current legislation, and best practices.

Cost-Saving Opportunities - The Center teams up with civic-minded businesses to provide our members deep discounts on the things they need the most.

*To strengthen the capacity
of nonprofits to serve the
people and communities
of Mississippi*

A Message from Our Chairs

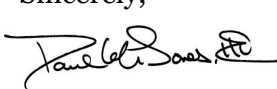

The Mississippi Center for Nonprofits proudly strengthens the capacity of nonprofits to serve the people and communities of Mississippi. The Mississippi Center for Nonprofits operates under the highest of moral and ethical codes when it comes to our generous supporters. As part of this commitment to excellence, the Center makes sure that you can support the initiative you feel the most strongly about through your investment, whether that is education, public policy, or supporting the Center.

Your investment shows that you believe that it is important for the Center to educate, provide support and resources for, and advocate on behalf of Mississippi's nonprofits. Your generous support allows the Center to continue its work with Mississippi nonprofits to turn Mississippi into a "best in class" state.

It is our goal to make sure that nonprofits succeed, because when they do, communities profit.

Please consider the 2009 level of investment you will make in the state's only nonprofit management center so that we may continue to serve our Mississippi nonprofit sector through education, resources, and information.

Sincerely,

Paul G. Jones, III
